# Current B.I.T.E. Students

“Growing up I knew I wanted to be a teacher but I couldn’t figure out what I wanted to teach. After working at a job where I used the skills I learned in my High School business classes I knew immediately that I wanted to find a program to teach business, and I found B.I.T.E.”

~ Kristina Hughes

“Upon entering college as a non-traditional student, I knew that I wanted to obtain a degree that was universal. The B.I.T.E. program offers a variety of opportunities for the future, from teaching to the world of business!”

~ Erin Miles

# Current B.I.T.E. Students

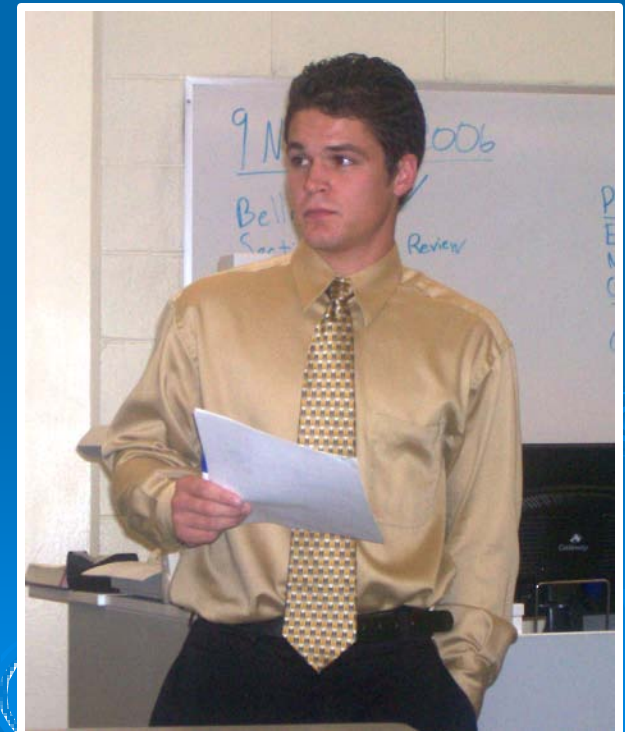

“B.I.T.E. has helped me develop my business skills as well as my teaching skills.”

~Dustin Everman

“B.I.T.E. has really helped me in so many different ways. The courses have given me confidence in doing anything related to business or technology, and also the ability to one day have my own class.”

~Jack Prater

# Current B.I.T.E. Students

“I’ve always had the desire to help people, most importantly – students. The B.I.T.E. program offers a variety of opportunities. It has increased my business skills as well as preparing me for the classroom.”

~Weylin Fairchild

“The B.I.T.E. program has given me many opportunities to explore all aspects of the business field.”

~Robert Schooley

# Current Teacher Testimonials

“The BITE program at Morehead State University is one in which young professionals are able to hone in on their teaching skills before actually accepting the responsibility of their professional semester of student teaching. Each year, the program is evaluated so that the University can continue to offer the best education possible for those students who are interested in becoming a Business Education instructor. This is a compliment to the instructor, Dr. Donna Everett. She is flexible and remains current in the teaching trends and technology for Business Education--we are fortunate to be able to work with such an enthusiastic person.”

~Ronda Bowles

Montgomery Co. ATC

# Current Teacher Testimonials

“The reason that I chose business education at Morehead State University is that it is a local university that has a tradition for having a wonderful business department as well as an excellent education department. It is also a family tradition.”

Mrs. Kathy Henderson  
West Carter High School

Tracy Prater  
Magoffin County CTC

# Current Teacher Testimonials

**Mrs. Ann Riggs**  
**Keyboarding Instructor**  
**Montgomery Co. High School**

"While the difficult takes time, the impossible just takes a little longer."--I find this to be true with so many of my students. They don't realize how achievement will boost their confidence and self-esteem. When they finally accomplish a task or learn to touch type and use the many attributes of a computer, my heart soars and one of the purposes for my life has been fulfilled. Being able to teach technology is one of the greatest rewards because I can actually witness success first hand each day--by the end of an entire week even students can see their progress. I have been teaching for 25 years and have been blessed by many experiences involving the success of teenagers."

# Current Teacher Testimonials

**“After serving 20 years in the Armed Forces, teaching has become my second career. Teaching business provides me an extraordinary opportunity to educate our youngest citizens in the concepts of a free market, application of technological advances, and the importance of personal finance.”**

**Mr. Steve Meadows  
Bath County High School**

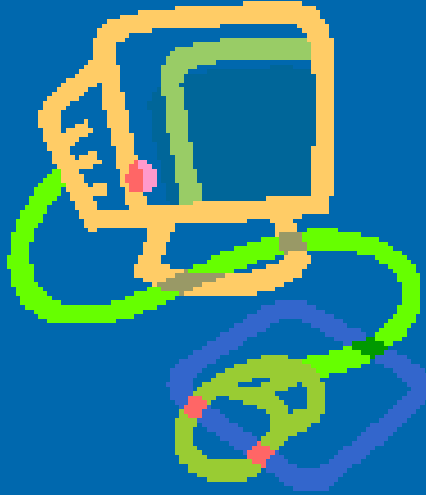

# Current Teacher Testimonials

“I like to see people succeed. Throughout high school and college, I have had teachers and professors who not only taught me the subject matter, but they also made me a more successful person. If I can educate students as well as help them become a more successful individuals, then I have accomplished my goal. It is my belief that I can do this, and that is why I’ve gone into the teaching profession.”

Mr. Jeremey Boohar  
Bath County High School

# BITE Program Advisor

“As the advisor for teacher education students, I have the opportunity to repay all of my high school business teachers who gave me every skill I needed to succeed in business.”

Dr. Donna

Everett
