## *Future Plans of Graduating Seniors*

### *2009-2010*

The Graduating Senior Survey was administered by the Office of Institutional Research and Analysis in both the fall and spring semesters of 2009-2010. To increase the response rate, the survey was administered to graduating seniors at the Graduation Fair held each semester in the Adron Doran University Center on the MSU main campus. Students were informed that their participation in the survey was voluntary and did not impact their graduation status. There were 369 graduating seniors who participated in the survey. A question regarding future plans (Question 1) was previously added to the survey for the purpose of inclusion in the Voluntary Self Assessment (VSA) College Portrait. Multiple responses were allowed for this question. The results of Question 1 are given below:

**Morehead State University continually strives to improve your educational experience. We truly value your opinion, and will maintain the strictest confidentiality at all times. Thank you for your thoughtful participation.**

1. **Please select the response(s) below that best describes your future plans as a new degree recipient:**
  - 261 *Employment*
  - 5 *Military or volunteer service*
  - 10 *Additional undergraduate work*
  - 180 *Graduate school*
  - 21 *Other*

In conclusion, 70.7% of graduating seniors who participated in the survey selected Employment (261 out of 369) and 48.8% selected Graduate School (180 out of 369) as their future plans.
